WALL-STREET BUSINESS

IRREGULAR STOCK MARKET DE-PRESSED BY PROFESSIONALS.

Railroad Bonds Lower and Silver Certificates Slightly Higher-Local Markets Holding Firm.

At New York, yesterday, money on call

posted rates, \$4.814@4.83 and \$4.844@4.85; commercial bills, \$4.791/2.

Bar silver, 64%c; sliver certificates, 65@ 65%c. Bar sliver at London closed at 29%d per ounce.

Total sales of stocks were 172,650 shares, including the following: American Tobacco, 19,200; American Sugar, 43,200; Burlington & Quincy, 10,600; Louisville & Nashville, 3,000; Manhattan, 10,700; Reading, 19,000; St. Paul, 21,200; Union Pacific, 4,700; silver certificates, \$10,000.

The New York stock market was irregular yesterday, with a sagging tendency on miners', 45c: a diminished volume of business. The professional traders maintained their control of the speculation, but some commission by the stiffness in the money markets and by an unexpected heavy withdrawal of gold from the subtreasury under somewhat peculiar circumstances. The details of the transaction will be found in another column. The stock market made an early display of strength on the failure of the governors of the Bank of England to adcovernors of the Bank of England to advance the minimum rate of discount of the institution as had been expected. An advance to 3½ per cent, had been considered in the light of a foregone concusion, owing to the rise in the London street or open discount rate to 3 per cent. which is the current bank figure. This conservative attitude of the British governmental mancial institution was regarded as assuring further large shipments of gold to this country. The good effect was soon dissi-pated and a succession of bear attacks ke prices despite favorable trade reports some of the stocks involved. greatest bear aggression occurred in the afternoon session and caused the wiping out of the early improvement. The market opened firm, despite lower London prices, under the leadership of Tobacco, in which stock effective manipulation was again apparent on revived rumors of an impending purchase of leading firms in the opposition to the company by powerful financial in-terests. A rise of 3% per cent., to 76, oc-curred on an irregular movement. Subsequently a reaction took place to 74%. The final figure was 75%. Bay State Gas dropped 4% per cent., to 8%, on rumors of an actual or impending receivership, which elicited emphatic dentals by inside interests. The stock rallied to 10 s. The pressure against the list caused declines of 2 percent. In Sugar and Leather preferred, and losses of a point from the high level were scored by Chicago Gas and General Electric. The grangers and other leading shares sold off 101 s, with St. Paul, Burlington and Manhattan leading. The close was weak at fractional net losses.

Trade More Active, with Not an Im-

portant Fluctuation.

On the wholesale streets and Commission row yesterday trade was much more satisfactory than in the preceding days of the week and steady prices ruled. Not a change of importance is noted. Sugars are firm at the adavnce of Wednesday and all staple groceries are in strong position, with the grocers having a brisk trade. Dry goods rule steady and merchants report more doing this week. With hardware men trade is quiet. Leather dealers report trade good and prices still advancing. Poultry is weak at quotations. Eggs are firm and they would be higher but for eggs which have been stored

52.25; B, 57. Double: AA, \$10.75; A, \$10.50; A, \$10.50; A, \$10.50; A, \$10.50; B, \$1 higher but for eggs which have been stored coming on the markets and keeping prices down.

Druggists and confectioners are having a good business for October.

The local grain market continues more active, but prices on track made no advance yesterday, the first day there has not been some advance for some days. Track bids ruled yesterday the

Every Dollar that Has Come from Abroad Since the Inflow Began Is Due to Natural Causes.

WASHINGTON, Oct. 15 .- Assistant Secretary William E. Curtis, of the Treasury De-Secretary Dabney, of the Department of Agriculture, in which he defends the New York bankers from the allegations often made that they are interested in the withdrawals of gold from the treasury. In the

upon one or two occasions lately when purchases of government bonds were being made, but for this a premium was paid, and it was purchased and shipped like cotton or wheat, without regard to the rates of exchange ruling here, and was an abnormal proceeding. During the years succeeding the resumption of specie payments in 1879 and until the currency question disturbed our monetary relations, there was a regular movement of gold to this country in the late summer and autumn while we were marketing our agricultural products abroad. A return flow from this country abroad began in the spring and continued through the early summer to pay our debts for imports and for other purposes. Lower usually in our favor, as it is at present. The excess of merchandise exports over of September of this year amounted to \$95,997,945, while for the corresponding time last year the excess of merchandise imports was \$46,587.288. In other words, instead of disbursing this latter amount in foreign markets, we this year are receiving from them \$95,997,945, a balance in our favor Moreover, the tide of seeign holders since 1890 has largely subsided, at least for the time being, and there is not as much of a drain from here on that account. The high rate of interest during the past few weeks has attracted foreign capital from centers where the interest rates have been much lower. This peculiarity was also very marked during rency panic, when the ruling rates of in-terest were abnormally high and large amounts of money were loaned from abroad and the gold coin sent to this country. is caused by the large increase in the balance of the United States treasury arising from the bond issues, and from the hoarding of gold and of notes redeemable in gold which has been going on among the people for some time, in view of a possible failure of the United States to continue their re-demption in gold. The critics who talk so freely about importing fifty millions of gold for effect from the other side of the ocean do not seem to realize the importance of such a transaction, and that there must be value exchanged for it, either in the shape of exports or securities, or in some other way. It will be seen from the published names of the parties who receive the gold imported that they are mainly the dealers Pork—Dec. \$6.85 in exchange, or houses, or institutions, having foreign connections, and that the na- Lard-Dec. tional banks, except as institutions to re-ceive the deposits of their customers, are not at all interested, except in the case of one or two of the larger, who have regular London correspondents with whom they do an exchange business. It must not be forgotten that the confidence in the situation which has placed the country in the tion which has placed the country in its present satisfactory condition regarding its gold reserve was largely due to the efforts of the bankers of New York in the early summer. The fact of their agreeing to furnish bills of exchange at rates under the gold shipping point and endeavoring to bring about artifically that which we now know is a logical result from natural causes, inspired so much confidence that normal conditions prevailed and the situa-tion cured itself. According to the pubtion cured itself. According to the published reports during April, May, June, July was being exported, the rates of sterling sight exchange at New York have ruled to \$4.88_2\$ to \$4.90_4\$, and during the last of August and up to the present time, while imports of gold were being made, they have

They Resent the Slanderous Articles LOUISVILLE, Ky., Oct. 15 .- Some vigoracterized the second day's session of the Leathers. After the report of the executive committee, which involved no importa t derson, entitled "The Banks and the Peop.e," was read by B. G. Witt, of the same city. During the currency discussion Mr. Witt said that the bankers of the State had sat at their desks and allowed the most slanderous articles attacking them to ap-Thursday's Bank Clearings.

WHEAT GAINED A CENT

FURTHER ENGAGEMENTS FOR INDIA HELPED ADVANCE PRICES.

Other Grain Not Sympathetic with the Lender, but Provisions Firmed Up and Closed Higher.

CHICAGO, Oct. 15 .- The failure of the wheat crop in India, attested by the continued engagements for shipment to that country, helped wheat to regain what it lost yesterday and a little more too, December closing at 1c advance. The coarser grains were not sympathetic, corn closing unchanged and oats 14c lower. Provisions advanced 214@1214c. The strength of the advanced 21/20121/2c. The strength of the foreign markets was the main reliance of the buils at the opening of the wheat market. Chiefly on account of this December opened at an advance of about 1/2c, initial trades being at 69% @70c. Another matter which helped the furtherance of bullish sentiment was the comparative smallness of the Northwestern receipts, which were reported as being \$37 carloads, compared with 1,150 a week ago and 1,270 last year. Advices from the Northwest were to the effect that a gradual diminishment of farmers' deliveries might be looked for. The opening advance was not fully maintained, however, but, although there was, pentine firm at 284-930c. soon after the opening and on several subsequent occasions, lots of wheat for sale, there were always buyers enough to prevent a severe break. The lowest prices of the day were reached soon after the opening. The decline was due to the price current report that wheat promised to Lima and Indiana, 19c. reach 450,000,000 bushels and to the continued selling by Armour. This feature was very prominent again to-day, but the readiness with which his brokers disclosed his name created a suspicion that the selling was more to break prices than to get rid of his wheat. But it was of sufficient influence to force December down to 6914c. Then the influence of the foreign news be

gan to be felt again. Liverpool, which opened at a 1/d advance in the face of yesterday's local decline, reported a further rise later, crossing cables showing an advance for the day of 1d to 14d per cental for American wheat. Parls, Antwerp and Berlin also quoted advances and advices from San Francisco said that 6d advance per quarter had been bid there for wheat to go to Calcutta. Still another motive for buying was found in the beavy exports from the Atfound in the heavy exports from the At-lantic seaboard, which amounted to the equivalent of about 600,000 bushels. That included 165,000 bushels of wheat from New Orieans, which was cleared yesterday, but not previously reported. The price of De-cember gradually recovered to 70%c, and during the remainder of the session held stilly around \$2,0, with occasionally a dip of 4,0 from the price, but winding up strong with a spurt to 70% \$7.0%,0, where it closed. Among all the other strong features of the day's news was the reported taking for export at Minneapolis and Duluth together of about 400,000 bushels. Corn was quiet and weaker. The demand for the cash article was good, however, both for shipment from here and at New strong wind-up of the wheat market that corn looked like maintaining yesterday's closing price. Considerable realizing was market is a done by longs, whose holdings showed a rent prices. satisfactory profit. May opened about 14c lower, at 271/2/2281/2c, declined to 271/2c and recovered to 281/2c, that being the closing

Cats sold lower on account of liberal offerings, also in sympathy with the early decline in wheat. The close, however, showed a portion of the loss regained and only a slight drop from yesterday's clospaid in the New York market for call loans ling prices, the recovery being due mostly to sympathy with wheat. May opened unchanged at 20%620%c, declined to 20%c and recovered to 20%c, where it closed. Provisions had a firm undertone and soon recovered from the opening decline caused by a weak hog market. There was a no-ticeable lack of offerings, and, with a good higher, at \$4.40; January ribs 10c higher at \$3.8712. Estimated receipts for Friday: Wheat

245 cars; corn, 975 cars; oats, 445 cars; hogs, Leading futures ranged as follows:
